APPENDIX

DATA AND STRATEGIES PER COUNTRY ON EMERGENCY CALLS & PUBLIC WARNING DURING COVID-19 OUTBREAK

Important disclaimer:
This information was collected from news and media sources and online advice from governmental services between 19 March - 03 April. It has not been validated by the emergency services in each country. The situation and strategies in each country is constantly changing and we will try to update this information as much as possible. This information is intended to help emergency services in each country to learn from each other and to prepare their emergency communications services. It is not intended as a source for the general public.

If you know that the information in your country has changed or you can help us by providing information about your country, please contact Rose Michael at rm@eena.org.

### Croatia

**In charge:** Croatian Institute of Public Health

**Previous advice:** If you have been in close contact with a confirmed case of COVID-19, you are experiencing severe symptoms dial the following telephone numbers of the Croatian Institute for Public Health for further information (these landlines are available to the public during business days from 8:00 to 22:00 and from 8:00 to 14:00 on Saturdays and Sundays):

(+385) 91 468 30 32  
(+385) 99 468 30 01

**18 March updated advice**

**Now:** Call 113 - new national hotline (24h) created to answer questions about the COVID-19. The number is free of charge.

The line will be open 24 hours a day, but there is a possibility that a few night hours will divert calls to 112, but the number is in operation 24 hours a day.

### Cyprus

**In charge:** Ministry of Health

Only to report symptoms: 1420  
For general information on Covid-19: 1450 and 1412.

Queries on the Labour Ministry’s support package: 1433

1412 hotline launched 20 March. 1450 launched on 13 March.

On 18 March announced: Only those with a dry cough, high fever and dyspnea who also travelled outside Cyprus in the past 14 days should call the 1420, others should call their General Practitioner.

### Estonia

**In charge:** Ministry of Social Affairs

**Previously:** If you face questions about COVID-19 or experience symptoms, call the medical advice number +372 634 6630 (English service daily between 15.00-17.00, other times 24/7 in Estonian and Russian). If necessary, the advisory workers will re-direct the call to the public emergency number 112. Before, 1220 was also a recommended national line.

**1220** - For medical advice and consultation the family doctor.

**Updated Advice:**
**Now:** Estonia’s new coronavirus information helpline at 1247. Calls to the helpline can be made also from abroad by dialling +372 600 1247.

<table>
<thead>
<tr>
<th>Previously</th>
<th>Now</th>
</tr>
</thead>
</table>

**19.03.20**

“2,129 calls were received by Estonia’s new coronavirus information helpline at 1247 during the first 24 hours of operation. During the same period, 3,335 calls in total were made to the emergency line 112.”

“Please let us keep the 112 lines free for those who urgently need an ambulance, the police or the rescue service to come to their aid.”

**Information collected [HERE](https://bit.ly/2R1Kkh3) on the 19th March.**

### Finland

**In charge:** Finnish institute for health and welfare

If you have severe symptoms, you should call your health centre.

A national telephone service at the number 0295 535 535 gives general information and advice on the coronavirus on weekdays 8–21 and Saturdays 9–15.

**Additional regional information:**
**Helsinki:**
If possible, make a coronavirus assessment on omaolo.fi

If you do not manage with self-treatment, ring Helsinki Coronavirus helpline, tel. 09 310 10024 (weekdays 7-20) and at other times the Medical helpline, tel. 116 117.

In case of emergency, please call 112.

<table>
<thead>
<tr>
<th>12 March</th>
<th>The government declared an emergency situation in Estonia until 1 May.</th>
</tr>
</thead>
</table>
In charge: Government of the French Republic
A free helpline answers questions 24/7 about Coronavirus COVID-19: (+33) 0 800 130 000.

**Warning:** the helpline is not qualified to provide any medical advice.

For people having symptoms of Covid-19, it is advised to stay at home, avoid any contact and call the General Practitioner.

If symptoms worsen with breathing difficulties, it is required to ask medical emergency services - 15 (or 114 for deaf and hard-of-hearing people).

For people having speaking or hearing disabilities, a specific page dedicated is available: [http://bit.ly/3bQxR2LE](http://bit.ly/3bQxR2LE)

Against domestic violence, it will be possible to send an SMS alert to 114 to trigger the intervention of the security forces.

14 March: In the medical emergency call centre in Toulouse, about **1500** calls per day are linked to Coronavirus. Information collected [HERE](https://bit.ly/2Ux9Xav) on the 19th March.

18 March: Gendarmerie of the Essonne department - Number of calls have increased by 70%.

18 March: Bordeaux - 2500 people call everyday, compared to 1000 usually. "At certain times, our technical capacity has been reached."

16 March: Nîmes - Health services' strategy has been modified after passing to stage 3 of the pandemic. If you face symptoms, do not call 15 but instead 0 800 1300 000, otherwise you may congest the line. "Usually the centre receives 600 calls everyday. Last Sunday, it received 3400."

A nation-wide SMS has been sent to all the population to tell them about the new measures adopted by the Government.

Antoin, a medicine student, came to help the emergency call-takers who are overwhelmed with calls about Covid-19.

Lille and Amiens Coronavirus: Medicine students come to help overwhelmed call-takers.

Toulouse Coronavirus: retired people and students come to help SAMU 31 call centre.

A website assesses the symptoms and direct worried people.

Drone flies over French riviera to enforce confinement

Marlène Schiappa, has revealed a dramatic increase in domestic violence cases since the lockdown started.

18 March: French government declares state of sanitary emergency.

Link: [https://politi.co/2UPG0m3](https://politi.co/2UPG0m3)

27 March: French PM extends coronavirus lockdown until April 15.

In charge: Federal Ministry of Health

Persons who have had personal contact with someone confirmed with COVID-19 should immediately, and irrespective of symptoms, contact their competent health office, get in touch with the doctor or call 116117 – and stay at home.

You can find your local health authority by using the search tool on the Robert Koch Institute website at https://bit.ly/2WEMiHW

112 for emergencies only!

For people with symptoms there are several hotlines available.

Hotlines:

Nationwide Coronavirus emergency numbers:
Hotline run by Germany’s health insurances: 116117

Hotline run by Ministry of Health: 030-346465 100

Ambulance (and fire department): 112

Coronavirus hotlines in federal states:

### Netherlands

**Responsible: Government of Netherlands**

If you have a fever below 38°C or cold-like symptoms, stay at home. No need to call your doctor.

If your symptoms are or become more severe (you have a fever above 38°C, you have a cough or experience shortness of breath), call your doctor.

20.03.20

A Cell Broadcast message was sent to the population to tell them to keep their distances from each other.

### Norway

**In charge: Norwegian Institute of Public Health**

If you have mild respiratory symptoms you should stay at home, but you do not need to contact the health service for testing.

If you have more serious symptoms, contact your doctor by telephone. If you cannot reach your doctor, ring the emergency out-of-hours clinic (116 117). An information hotline is available on 815 55 015.

Emergency numbers may only be used by persons who are acutely ill.

24.03.20

### Poland

**In charge: Government of Poland**

Helpline of the National Health Fund (NFZ) 24/7 - 800 190 590

In addition to this helpline for all Polish people there were two lines activated for Polish people living or travelled recently to the Northern Italy:

- Lombardia: 800 894 545
- Veneto: 800 462 340

Private clinical groups also have their own helplines for everyone: Grupa Lux Med - 22 338 19 03

20.03.20

13 March - helpline had already received 32,000 calls.

Information collected [HERE](https://politi.co/3bGaMoh) on the 20th March.

"Several thousand calls a day regarding coronavirus are received by consultants of the National Patient's Telephone Information Service."

Information collected [HERE](https://politi.co/3bGaMoh) on the 20th March.

A special mobile application has been developed - STAY HOME activated in all Poland.

This app helps people to be located easily, call directly the helpline and order grocery for old/alone people.

13 March - The country has been in a state of "epidemic threat."
### Portugal

**In charge:** Ministry of Health  
**Mainland Portugal**

**Emergency helpline** (24h): (+351) 808 24 24 24

Information collected [HERE on the 18th March.](https://bit.ly/33Faxao)

17 March

The National Authority for Emergency and Civil Protection (ANPEC), in collaboration with the General Directorate of Health (DGS), is sending a **warning to the population by SMS**, in order to inform citizens about the risk situation related to COVID-19.  

**Mainland**

“The SNS 24 line reached a historic number of calls on Monday (25th March) shortly after confirmation of the first two cases of coronavirus in Portugal. On that day, SNS 24 line received **13,532 calls**, of which **3,569 people gave up waiting for the service** - “abandoned calls after 15 seconds”. Next Monday, 9th March, the SNS 24 line received **27,679 calls** (new historic high). Only **10,940 calls were answered.** SNS 24 line did not answer 54% of calls.

**Information collected HERE on the 18th March.**

Madeira

28 February: The number of calls to the emergency line created in Madeira under the contingency plan for the coronavirus Covid-19 increased this week from 23 to 65, said the Secretary of Health today.  
[Information collected HERE on the 18th March.](https://bit.ly/2U7acAa)

**New strategy:**

- **More staff**  
  In order to increase the “effectiveness of the line”, DGS divided the health professionals who answer calls into three teams:  
  1. Dedicated to citizens with symptoms of covid-19  
  2. To track people with complaints not related to the new coronavirus  
  3. Nurses focused on providing information

**Information collected HERE on the 18th March.**

11 March: “The SNS24, before Monday, allowed 200 calls to be answered simultaneously, on Monday 500 calls simultaneously and on Tuesday 1200 calls simultaneously. Regardless of human resources, technology needs to support this reinforcement of calls.”  

### Romania

**In charge:** Ministry of Health  
**Romania**

Call for recommendations and other information on the TELVERDE line (information line) 0800.800.358

**Romanians abroad** can request information about the prevention and control of the virus at their specially dedicated line: +4021.320.20.20.

Call emergency number 112 if at least one of the following symptoms occurs: cough, fever, difficulty breathing, sore throat.

**On 20 March:**  
In the last 24 hours, **1,604 calls were registered to 112 4,950 to the TELVERDE line** (0800 800 358), open especially for informing citizens.  

**A Cell Broadcast message was sent with key instructions to the population.**

**16 March - Cataluyna**

"The collapse of 061 is such that 112 spend the day answering calls related to the virus."

"According to union sources, 061 currently has 7,000 calls of this type pending return to people who say they have symptoms of COVID-19."

**Information collected HERE on the 19<sup>th</sup> March.**

**18 March** – “Calls to 112 have tripled and 57% are very inconsequential inquiries about Covid-19.

The saturation of 112 with this health alert is very worrying."

"With the evolution of infections, those calls to 112 will multiply if the citizen continues to be wrong when dialling the number. And from saturation you could go to collapse, which an emergency phone can't afford. On Monday (16 March) the 112 received 11,457 calls in Catalonia (the normal number is 4,500 a day) and 6,591 (57.5%) were for irrelevant queries associated with the coronavirus."

**Information collected HERE on the 19<sup>th</sup> March.**

From March 14 to 29, the victims' helpline received 3,382 requests, 18% more than in the same period of the previous month.

### Sweden

In charge: Public Health Agency of Sweden  

**Information number (24h):** (+46) 113 13

National information number for major accidents and crises. Gives answers to general questions on coronavirus which are not symptoms or health-related, if you can't find the information online.

**Health advice by phone:** 1177

Ring there or your health centre if you have symptoms, such as dry cough, fever and/or breathing difficulties and one of the following applies: you feel very sick; are over 80 years old or work in the health sector.

Huge overload of the 1177 number. Therefore, questions about the virus are now referred to the national information number 113 13.

Stated on their website: "extremely high volume of calls to 113 13. Waiting time longer than the usual."

"Note that there is a high activity for both numbers, which makes that waiting time is long. Therefore, we ask you to first find information online in one of the links on the right of this page."

**Information collected HERE on the 19th March.**

Information provided by SOS Alarm by email on the 26th March 2020:

"We have a higher level of incoming calls; + 23 500 so far in March (from 1st to 25th) on 112. Many questions around covid-19 and an increasing number of ambulance transports of suspected covid-19-cases (350 yesterady, compared to 200 one week ago)."

On the **113 13-number we usually, in an every day, has around 30 calls a day. Now we have peaked at 35 808 incoming calls - and this in 24 hours on the 12 of March(!). A total of 216 000 incoming calls on this number so far in March up to yesterday."
